ABOUT ME

Innovative Landscape & Agricultural Engineer with over 15 years of experience in the UAE market. Proven expertise in blending traditional horticulture with modern biophilic design to create sustainable, high-end commercial and residential spaces. Adept at full-cycle project planning, cross-functional team leadership, and leveraging modern digital tools, from AI-driven corporate branding to front-end web development, to enhance client presentations and streamline operations. Strong background in introducing smart agricultural technologies and optimizing irrigation for arid climates.

WORK EXPERIENCE

2025-NOW

KAHF GREENS, DUBAI - AGRICULTURE ENGINEER

Lead comprehensive landscape redesigns for commercial properties (including high-traffic restaurants), focusing on aesthetic appeal, symmetry, and biophilic elements. Evaluate and introduce modern agritech products, such as environmental sensors, into the UAE market to optimize client crop yields and plant health. Direct the creation of interactive digital presentations and AI-generated visual mockups to secure stakeholder buy-in for major commercial projects."

2022-2024

GREEN ACRES LANDSCAPE, DUBAI- AGRICULTURE ENGINEER

Managed cross-functional teams from the initial sales phase through to implementation, ensuring strict adherence to design integrity. Calculated irrigation pressure requirements and troubleshoot complex water delivery systems to ensure sustainable plant growth in arid conditions. Developed comprehensive project plans, making critical on-site decisions to mitigate delays and maintain budget constraints.

2019-2021

HAMZA MAROOF GARDEN CENTER LLC, DUBAI- AGRICULTURE ENGINEER

Achieved project objectives through effective planning of project activities and leading project teams from sales phase to implementation. Directed all landscape design projects, overseeing contracts, client service, and proposal development.
